Professional Summary

B.Sc. Computer Science graduate with strong knowledge of Python, Java, C, C++, HTML5, CSS3, JavaScript, MySQL, DBMS, and Web Development. Experienced in developing AI-powered and full-stack academic projects including Fake News Detection using Machine Learning and Blood Donor Finder. Skilled in responsive frontend development, database design, and problem solving. Passionate about Software Development, Artificial Intelligence, and building real-world applications. Seeking an entry-level Software Developer role where I can contribute while continuously improving my technical expertise.

Technical Skills

Programming Languages: Python, C, C++, Java

Web Technologies: HTML, CSS, JavaScript

Database: MySQL, SQLite3, DBMS

Operating Systems: Windows

Tools: VS Code, Git, GitHub, MS Office, Antigravity

Projects

Fake News Detection Using Artificial Intelligence

Python — HTML5 — CSS3 — JavaScript — SQLite — Streamlit — Scikit-learn

- Developed an AI-powered Fake News Detection system using Machine Learning and Natural Language Processing.
- Designed and developed the frontend using HTML5, CSS3, JavaScript (ES6+) with a modern Glassmorphism UI.
- Built backend functionality using Python and SQLite for local data storage.
- Integrated Machine Learning models using Scikit-learn for fake news classification.
- Applied NLP techniques including text preprocessing and feature extraction for accurate prediction.
- Developed an interactive Streamlit interface for real-time prediction.

Role

- Frontend Development (HTML5, CSS3, JavaScript)
- Backend Development (Python, SQLite)
- Machine Learning Integration
- Responsive UI Design
- Glassmorphism Design

Blood Donor Finder

HTML5 — CSS3 — JavaScript — MySQL

- Developed a responsive web application connecting blood donors with recipients.
- Implemented donor registration and blood-group based search.
- Designed MySQL database for secure donor information.
- Built responsive user interface using HTML5, CSS3, and JavaScript.
- Improved accessibility of emergency blood requests through efficient search functionality.

Role

- Frontend Development (HTML, CSS, JavaScript)
- Backend Development (Package, Json, Server.js)
- DataBase Development (Data db, MY SQL)
- Tolls Used(VS Code, Google Chrome)

Education

Bachelor of Science (Computer Science)

Don Bosco Degree College, Davangere University
2023 – 2026

CGPA: 8.5

Pre-University Course (PUC)

Department of Pre-University Education
2021 – 2023

74%

SSLC

Karnataka Secondary Education Examination Board
2020 – 2021

78.4%

Certifications

- National Cyber Crime Training Center (2025)
- Cloud Computing Course (2025)
- Cyber Security Essentials (2025)
- MY Bharat Budget Quest (2026)
- Viksit Bharat Young Leaders Dialogue (2026)

Achievements

- Overall Basketball Championship (2025)
- 1st Place — Quiz Competition (Technostav 2025)
- 2nd Place — Basketball (College sports)
- 2nd Place — Throw Ball (College sports)
- Coordinator — Technostav (College Event)

Languages

- English
- Kannada
- Hindi

Soft Skills

- Problem Solving
- Communication
- Team Collaboration
- Adaptability
- Quick Learner
- Time Management
